2011, Bachelor of Environmental Design (Honours), *University of British Columbia*

2009, Fine Arts Diploma, *Langara College*

John is an intern architect and urban designer involved in architecture, landscape and urban design projects at SvN. He produces drawings for tender packages, site plan approvals, masterplans and schematic designs and materials for planning reports, community engagement meetings and highest and best-use scenarios. Notable projects include the streetscape Reference Concept Design for the Hurontario LRT Corridor, 2521-2543 Lakeshore West Campus Masterplan, 25 St. Dennis Apartments, 412 Church Street Student Housing Residence and Six Points Interchange Streetscape Design.

John has completed internships in France, Morocco and Germany. He was engaged in a NGO initiative to build a science centre in Rustenburg, South Africa through a highly collaborative process. As a teaching assistant, John taught design studios focusing on site analysis at multiple scales, programmatic studies and architectonic principles. His research takes a critical look at the pervasive use of the podium tower typology in peri-urban conditions in the Greater Toronto Area. John holds a Masters degree in Architecture from the University of Toronto and a Bachelors degree in Environmental Design from the University of British Columbia.
