

# John Bautista M. ARCH, B. ENDS

Intern Architect

John is an intern architect who joins the firm as a recent graduate. While working on his masters degree, he participated in internships in France, Morocco and Germany. He was also engaged in a NGO initiative to build a science centre in Rustenburg, South Africa acquiring professional experience in a highly collaborative environment. As a teaching assistant, John had taught design studios with focus on site analysis at multiple scales, programmatic studies and architectonic principles. His research promotes a critical look at the pervasive use of the podium tower typology in peri-urban conditions in the Greater Toronto Area. He brings these diverse assets to his projects with his involvement in the firm's architecture, urban design and resettlement disciplines. John holds a Masters degree in Architecture from the University of Toronto and a Bachelors degree in Environmental Design from the University of British Columbia.
