Ahmed is an Intern Architect with seven years of experience. He holds a Master of Urban Design from the University of Toronto and a professional Bachelor of Architecture Degree from the German-Jordanian University. During his 2-year masters he was the recipient of 3 awards and graduated with 4.0 GPA.

Ahmed's thesis focused on densification within Toronto's Yellowbelt through proposing alternative housing solutions. He is also an Autodesk Certified Professional using Autodesk Revit.

Ahmed's multi-disciplinary background in Urban Design and Architecture gives him the opportunity to have comprehensive understanding of projects of different scales.
