## Qualifications

2006, Master of Architecture,  
*University of YAZD*

Maryam is a Senior Designer with over 14 years of Canadian and international experience in architecture and interior design and has worked on a variety of projects at varied scales and concepts. She has extensive design experience in residential, commercial, hospitality, institutional and mixed-use development building types. Maryam's experience has provided her a successful background in being involved in all phases of building design, from preliminary concepts to construction drawings and contract administration. She is proficient in the interdisciplinary coordination between architecture and engineering disciplines and has demonstrated the ability to work on multiple projects and deliver quality and timely results under pressure.

Prior to joining SvN, Maryam worked at other well known firms in Toronto such as Hariri Pontarini Architects and Adamson Associates Architects, working alongside famous award winning architects like Siamak Hariri.

---
