Saba is an Urban and Architectural Designer. Before joining SvN, she has been a part of multidisciplinary teams designing projects of various scales and scopes in Urban Design and Architecture. She has overall six years of experience working in Canada, Italy, and Iran.

Saba holds a Master`s Degree in Sustainable Design of Multiscale project from Politecnico di Milano in Italy and a BA in Architecture. The focus of her projects is mainly on transforming Urban dismissed areas and open spaces into public spaces within sustainable multiscale approaches. She is interested in sustainable design, Urban Resiliency, promoting ecosystem services, and green infrastructure.
