University of Waterloo

2017, Honours Bachelor
of Architectural Studies,
University of Waterloo

Symon is an Urban Designer with a Masters of Architecture from the University of Waterloo School of Architecture with seven years of experience. His graduate thesis work and research questioned how remaining government owned raw lands could be developed in order to address an affordable housing shortage in Metro Manila, Philippines. Prior to joining SvN, he gained experience working in various offices in Toronto, Vancouver, and New York City, in the fields of healthcare, multi-family residential, single-family residential, and academic institutional. He has a strong interest in exploring the interdependency of architecture and urban design in creating safe, healthy, and equitable urban environments.
