1986, Applied Science, *Vancouver Island University*

A highly accomplished architectural design professional, with over 25 years of experience in all phases of the architectural work environment. A forward-thinking designer, who creates elegant, sustainable, and integrated environments for a broad range of organizations. A leader in sustainable design solutions that prioritize human comfort and low energy systems. An advocate of the use of technology within architecture and design, spearheading early adoption of BIM through its successful implementation on signature design projects.
